MEMORANDUM FOR: General Counsel

INFO : Deputy Director for Operations

SUBJECT : Public Law 110

1. Informing me that he had just signed the required authorization for one of our Public Law 110 nominees, the Commissioner of the Immigration and Naturalization Service, General Chapman, made a comment in the spirit of helpfulness. He said that many of these cases stress the entrance as a recompense for excellent past service. He states that the law, however, stresses the future benefits to be derived. In the recent case, I said that the past services indicated clearly the character of the individual and that I believed there would be little doubt that he would make a substantial contribution to our country. General Chapman's point is somewhat less theoretical, however, in that he believes a specific benefit should be outlined wherever possible.

2. I pass this on to you for consideration in future Public Law 110 requests.

W. E. Colby
Director
